

MTT is Finland's leading research institution focusing on agricultural and food research and agricultural environment research. The MTT products include innovations and solutions relating to renewable natural resources. Research activities are organized into research areas and research programmes. MTT's research promotes the well-being of consumers, the competitiveness of the agricultural and food processing sector, sustainable use of natural resources, the quality and safety of agricultural production and products, the natural environment, and rural vitality. MTT operates under the Ministry of Agriculture and Forestry, and employs around 850 people at 14 locations across Finland. MTT's budget totaled approximately EUR 49 million in 2010
